①

Hello! We wanted to remind you that in order to switch to your new UnitedHealthcare plan next year, your Medicaid Behavioral Health (Apple Health card for psychiatrist visits) must also be set up through UnitedHealthcare. (Everyone who uses a ProviderOne card already has it in the system.) This rule takes effect in 2027. If your card is already set up through UnitedHealthcare, you don't need to do anything. If not, below we describe a few ways to do it yourself so that your new UnitedHealthcare Medicare plan starts next year.

Only the company that manages your Medicaid Behavioral Health (Apple Health) changes. Your full Medicaid coverage stays the same, and your ProviderOne card remains valid and unchanged.

Option 1: By phone

1. **Have your ProviderOne card ready and call:**

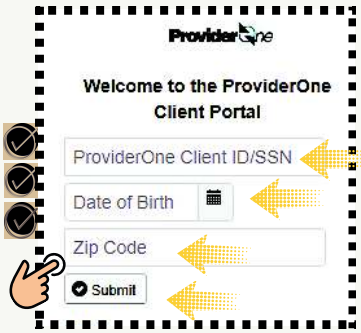

1-800-562-3022

2. **Stay on the line through the recorded message until an operator answers.**
3. **Tell the operator: "I want to change my Medicaid Behavioral Health (Apple Health) plan to UnitedHealthcare Community Plan."**
4. **If they ask what date it should start, answer: "December 1."**

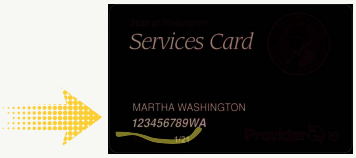

Option 2: Online www.waproviderone.org/client

Go to the website on a computer or smartphone:

No password needed — just your ProviderOne/Services card

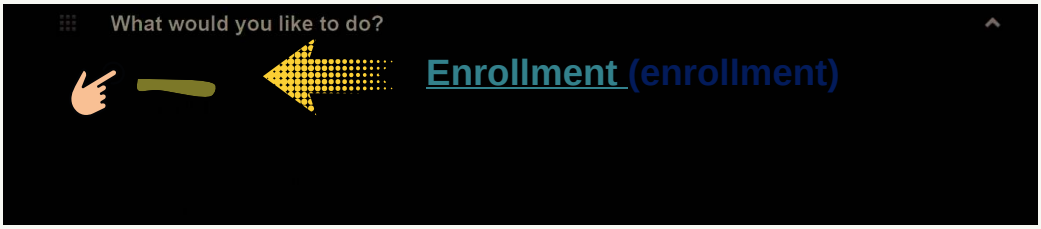

Fill in:

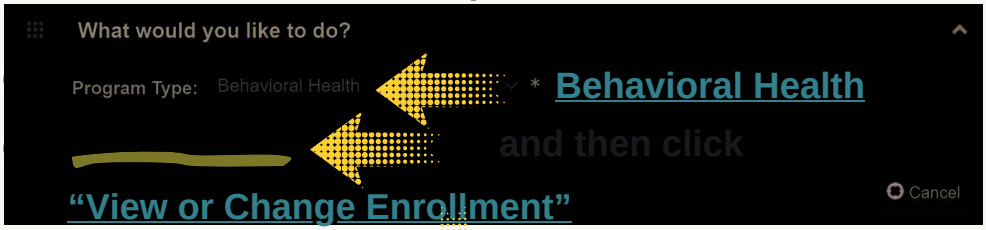

1. **Card number (9 digits + WA) or Social Security number**
2. **Date of birth — month / day / year**
3. **ZIP code (postal code)**
4. **Click the Submit button**

On the next screen, in the top left, click

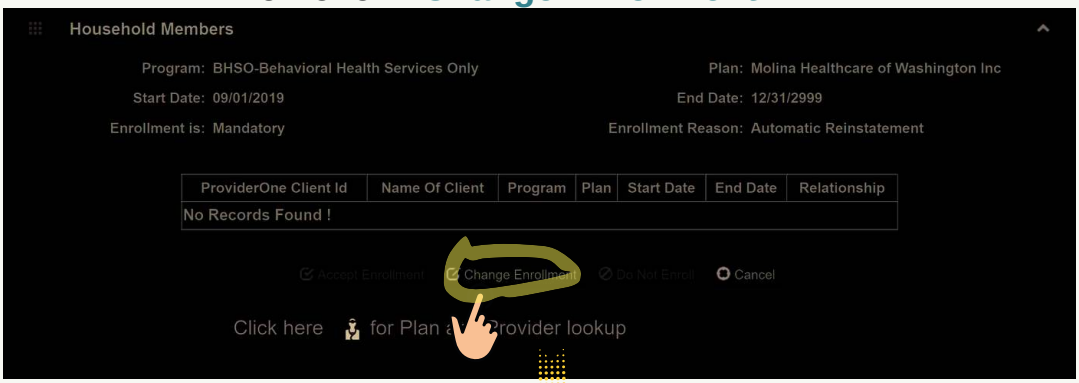

In the window that opens, first select

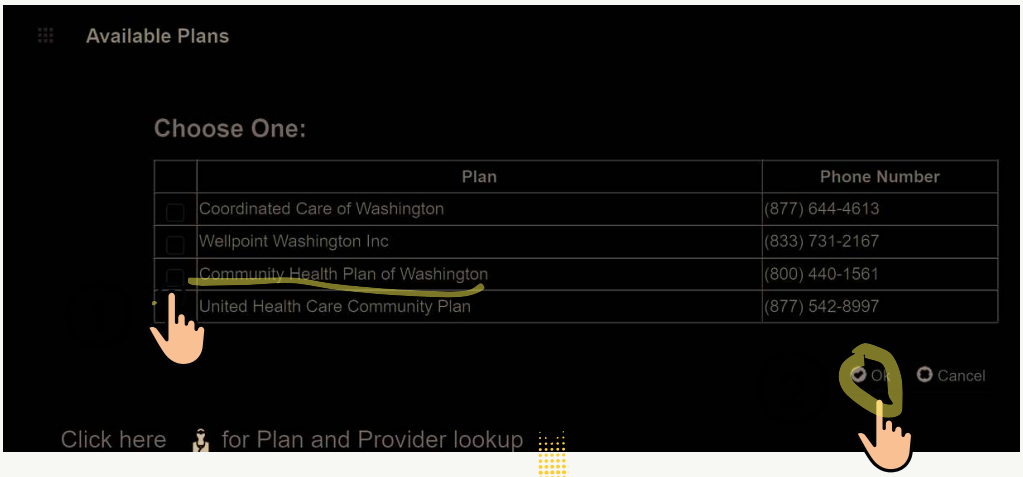

②

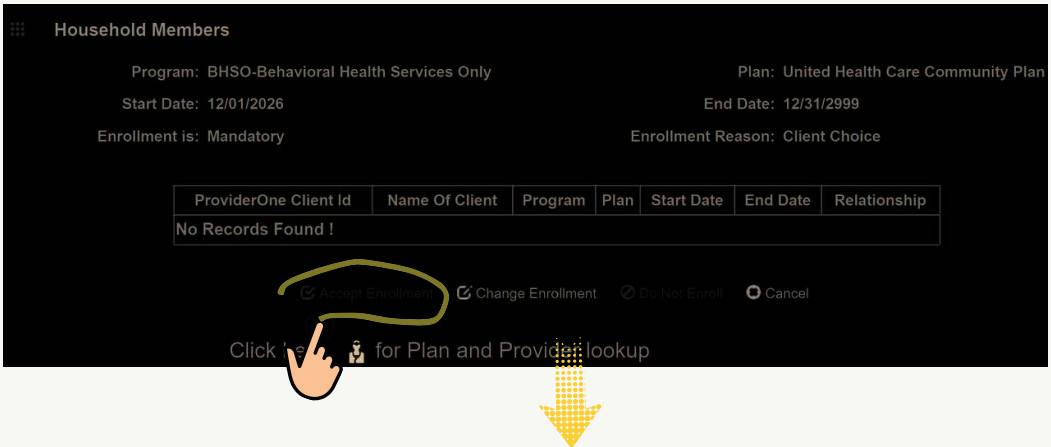

Then click “Change Enrollment”

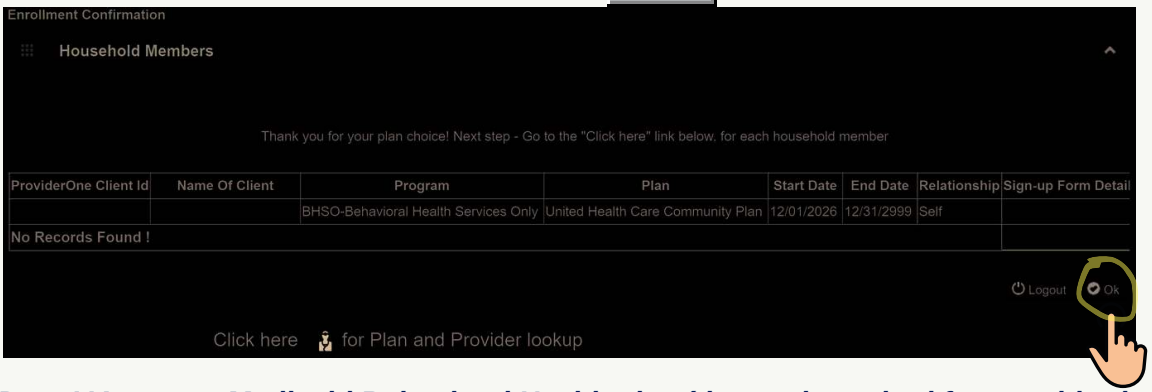

Next, check the box ☑️ “UnitedHealthcare Community Plan” and click OK

On the next screen, click “Accept Enrollment”

A new screen will open. On it, click OK to confirm your choice.

Done! Your new Medicaid Behavioral Health plan (the card required for psychiatrist visits) usually starts on the 1st of the following month. Watch for a letter in the mail.
