2027 Agent Quick Reference Guide

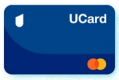

# UnitedHealthcare UCard®

The UnitedHealthcare UCard® is a benefit award card that lets members access more of what their plan offers including OTC products, earned rewards and CareFlex credits.

**Simple and secure benefit award card, only from UnitedHealthcare.**

## What's new for 2027?

### Separate cards

The current UCard serves as a both a Member ID card and a payment card. In 2027, most UnitedHealthcare Medicare Advantage (MA) Individual plans will move from a single integrated UCard to a separate Member ID card. Members will have a separate UCard as a benefit award card, which members will use to access their over-the-counter (OTC) credits, earned rewards and CareFlex credits, depending on their plan.

### Available nationwide

Individual Medicare Advantage (MA) members will receive a UCard if they have:

- OTC, healthy food and/or utilities
- CareFlex benefits
- earned rewards in a UnitedHealthcare rewards program

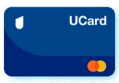

### Utilities and Care Flex

- Members can still use their UCard to spend earned rewards, OTC and healthy food credits at over 70,000 participating stores in the S3 network.

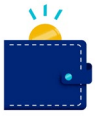

Members with utilities benefit or CareFlex can use those credits at a provider office or at any eligible utility company that accepts Mastercard® and are subject to merchant and provider eligibility requirements.

- OTC, healthy food, wellness support and rewards can only be used at participating S3 retailers and cannot be used through the Mastercard payment network.

### Built to last

The UCard will be distributed every three years (or upon loss /expiration) as long as members stay in a Medicare Advantage plan.

### CareFlex added

Members in a plan with CareFlex benefits can use their UCard to pay for out-of-pocket costs for most Medicare-covered services.
